#### Cost Category/Item Description

**Indirect Cost** 

Indirect cost rate may not exceed the approved/negotiated rate. Grantee may take the 10% de minimis rate - as per updated PART 200-UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS, Subpart E - Cost Principles, §200.414 Indirect (F&A) costs, "any non-Federal entity that does not have a current negotiated (including provisional) rate, except for those Federal entities described in appendix VII to this part, paragraph D.1.b, may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. No documentation is required to justify the 10% de minimis indirect cost rate. As described in §200.403, costs must be consistently charged as either indirect or direct costs but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time." MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and up to the first 10% of \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). MTDC excludes equipment, capital expenditures, charges for patient care, rental costs, tuition remission, scholarships and fellowships, participant support costs, and the portion of each subaward in excess of \$25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs, and with the approval of the cognizant agency for indirect costs.

Example of How to Calculate Indirect Cost using 10% de minimis rate.	11	
the grant award is \$250,000 and LHD plans to purchase a \$5,200 computer system, high reach	forklift @	
\$19,000, and pay warehouse rent of \$3000 per month or \$27,000 for the budget period		
1.Tabulate all exclusions \$5,200 + \$19,000, +27,000 = \$51,200	2.	
\$250,000 - \$51,200 = \$198,800 \$198,800/1.10= \$180,727.28, Round up \$180,728 (MTDC)		
Check work – MTDC of \$180,728 + excluded direct costs of \$51,200 + Indirect of \$18,072 =	Grant	
Award of \$250,000
